Signature Resources Announces Equity Financing

Toronto, Ontario July 6, 2026, Signature Resources Ltd. (TSXV: SGU, OTCQB: SGGTF, FSE: 3S30) ("Signature" or the "Company") is pleased to announce a non-brokered private placement of flow-through units ("FT Units") and non-flow-through units ("NFT Units") for gross proceeds of up to C\$600,000 (the "Offering"). It is anticipated that insiders will subscribe for at least 15% of the Offering.

Each FT Unit will be issued at a price of C\$0.045 per FT Unit and will consist of one common share of the Company (each, a "Common Share") to be issued as a "flow-through share" within the meaning of subsection 66(15) of the *Income Tax Act* (Canada), and one-half of one common share purchase warrant (each whole warrant, a "Warrant"). Each whole Warrant will entitle the holder to acquire one additional Common Share (a "Warrant Share") at an exercise price of C\$0.08 per Warrant Share for a period of 12 months from the date of issuance.

Each NFT Unit will be issued at a price of C\$0.04 per NFT Unit and will consist of one Common Share and one-half of one Warrant. Each whole Warrant will entitle the holder to acquire one additional Warrant Share at an exercise price of C\$0.08 per Warrant Share for a period of 12 months from the date of issuance.

The Common Shares of the FT Units will qualify as "flow-through shares" within the meaning of subsection 66(15) of the *Income Tax Act* (Canada). The Warrant Shares will not qualify as flow-through shares. All securities issued pursuant to the Offering will be subject to a four-month hold period in accordance with applicable securities laws and TSX Venture Exchange ("TSXV") policies.

The net proceeds from the Offering will be used for field exploration programs, including mapping and sampling on regional prospects, metallurgical test work and general working capital purposes. None of the proceeds will be used for investor relations service providers. The Company intends to pay finders fees in accordance with the policies of the TSX Venture Exchange. Closing of the Offering is subject to certain conditions, including, but not limited to, the receipt of all necessary approvals, including the approval of the TSX Venture Exchange.

About Signature Resources Ltd.

The Company is a Canadian based advanced stage exploration company focused on expanding the 100% owned Lingman Lake gold deposit, located within the prolific Red Lake district in Northwestern Ontario, Canada. The Lingman Lake gold property (the "Property") consists of 25 single-cell and 159 multi-cell staked claims, four freehold fully patented claims and 14 mineral rights patented claims totaling approximately 23,033 hectares. The Property includes what has historically been referred to as the Lingman Lake Gold Mine, an underground substructure consisting of a 126.5-metre shaft, and 3-levels at depths of 46 metres, 84 metres and 122 metres. There has been over 43,222 metres of drilling done

on the Property and four 500-pound bulk samples that averaged 19 grams per tonne of gold. The Company's initial mineral resource estimate was published in the report entitled "NI 43-101 Technical Report on the Lingman Lake Property" dated May 31, 2025 prepared by Gehard Kiessling, P. Geo., Farshid Ghazanfari, P. Geo., Marin Drennan, P. Eng., Cameron Finlayson and Jeff Plate, CFA, P. Geo., of Watts, Griffis and McOuat Geologic Mining Consultants. The initial published mineral resource was estimated to contained 2.145 million tonnes of material grading 1.38 g/t Au for an estimated 95,200 ounces in the indicated category and 18.398 million tonnes of material with an average grade of 1.14 g/t Au for an estimated 674,320 ounces in the inferred category at a cutoff grade of 0.30 g/t. The Company is focused on rapidly expanding the known mineralized envelope with its 100% owned diamond drilling rigs. In November 2023, Wataynikaneyap Power energized a new 115kV high tension transmission line within 40 km of the historic Lingman Lake Mine (<https://www.wataypower.ca/>).

Cautionary Notes

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this news release.

This news release contains forward-looking statements which are not statements of historical fact. Forward-looking statements include estimates and statements that describe the Company's future plans, objectives or goals, including words to the effect that the Company or management expects a stated condition or result to occur. Forward-looking statements may be identified by such terms as "believes", "anticipates", "expects", "estimates", "may", "could", "would", "will", or "plan". Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Although these statements are based on information currently available to the Company, the Company provides no assurance that actual results will meet management's expectations. Risks, uncertainties and other factors involved with forward-looking information could cause actual events, results, performance, prospects and opportunities to differ materially from those expressed or implied by such forward-looking information. Forward-looking information in this news release includes, but is not limited to, the Company's objectives, goals or future plans, statements, exploration results, potential mineralization, the estimation of mineral resources, exploration and mine development plans, timing of the commencement of operations and estimates of market conditions and risks associated with infectious diseases and global geopolitical events. Factors that could cause actual results to differ materially from such forward-looking information include, but are not limited to changes in general economic and financial market conditions, failure to identify mineral resources, failure to convert estimated mineral resources to reserves, the inability to complete a feasibility study which recommends a production decision, the preliminary nature of metallurgical test results, delays in obtaining or failures to obtain
